Free Data: Ready Now

Everything below is usable today: no funding, no approval, no waiting.

Condition	Dataset	Notes
Diabetes	AI-READI / FAIRhub	~4,000 participants, multimodal imaging + clinical data. Free account, no wait.
Diabetes	EyePACS	~35,000 labeled fundus images. Free Kaggle account.
Diabetes	APTOS 2019	~3,600 labeled fundus images. Free Kaggle account.
Diabetes	Messidor-2	1,748 fundus images. Free for academic researchers.
Diabetes	IDRiD	516 images with pixel-level lesion annotations. Open access.
Anemia	CP-AnemiC	710 labeled conjunctiva images with hemoglobin values. Direct download.
Anemia	EYES-DEFY-ANEMIA	218 images with hemoglobin ground truth. Free Kaggle account.
Cancer	IDC AI-Assistants Guide	IDC's own recommended access path: an agentic/LLM interface, not manual browsing.
Glaucoma	None yet	Existing collections (SMDG-19, REFUGE, ORIGA, AIROGS) are request-based; ORIGA outreach is in flight.

IDC recommending an agentic interface for its own data directly validates the GitHub repo and Claude Code skills already built.
